

How to Change your Email Settings in Outlook Express

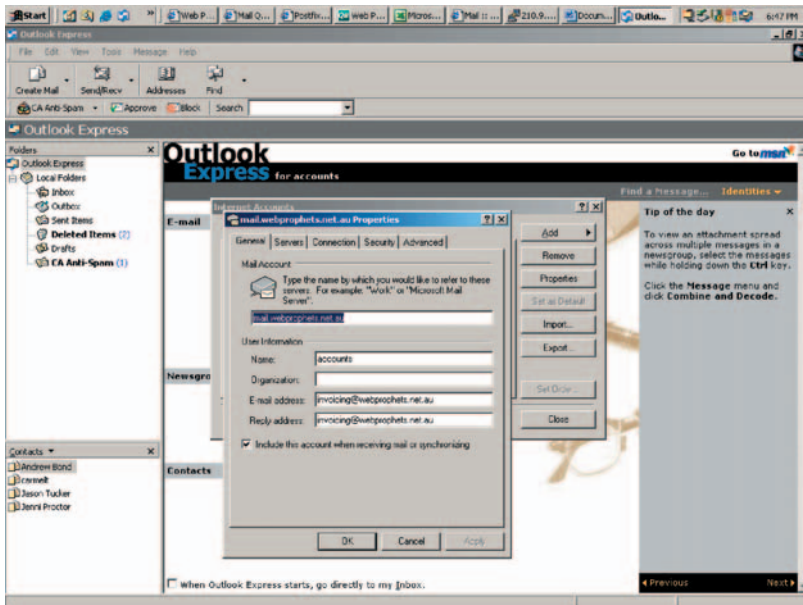

1. Open Outlook Express
2. Click Tools > Accounts

3. Click the Mail Tab
4. Click the Properties button

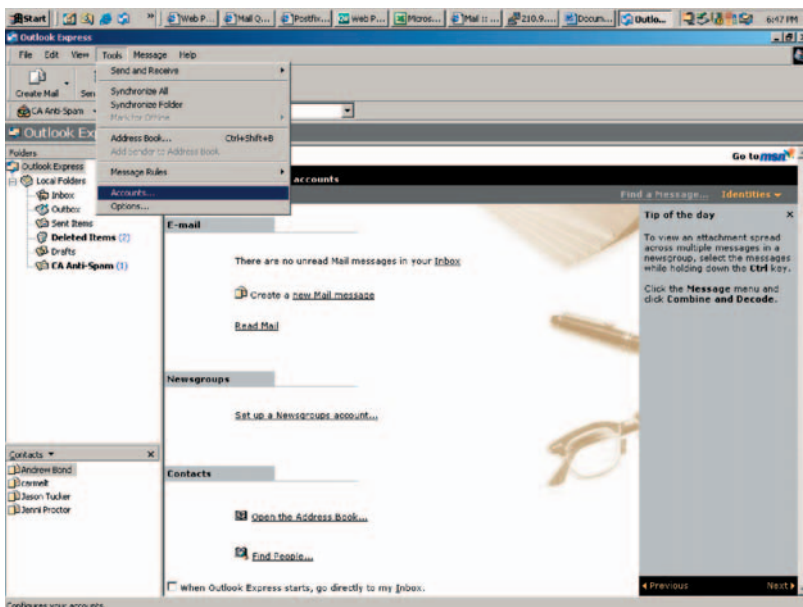

5. A window will open with your email settings, click the **Servers** tab

6. Change your **Incoming mail** (pop3) to mail.wpcpanel.com

7. Change your **Account Name** to your full email address i.e. yourname@yourdomainname.com

8. Change your **Password** (if we have sent you an email/fax the details of this will be listed on this document).

9. Click **Send\Recv** to download your emails.
