

How to Change your Email Settings in Outlook

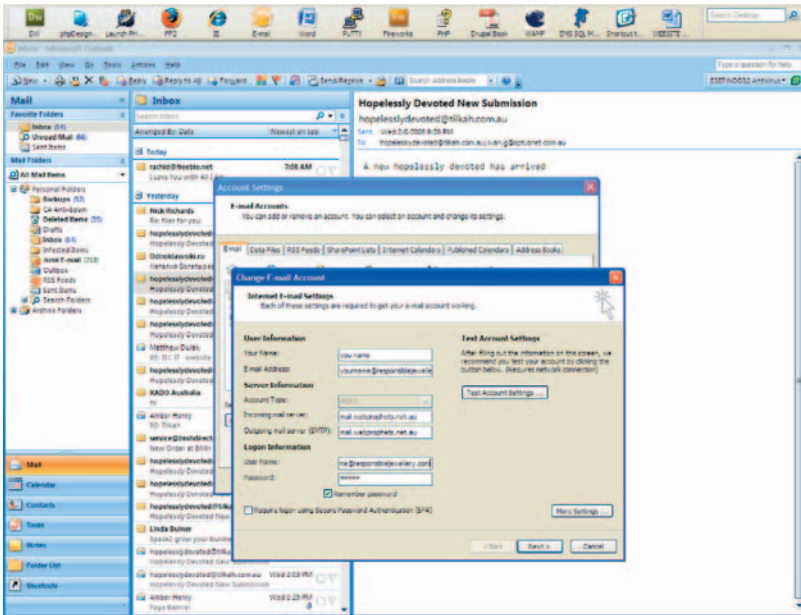

1. Open Outlook Express
2. Click Tools > Account Settings

3. Select the email account you want to change
4. Click the Change Icon just above the Email account listings.

5. Change your **Incoming mail** (pop3) to mail.wppanel.com
Change your **Username** to your full email address i.e. yourname@yourdomainname.com
Change your **Password** (if we have sent you an email/fax the details of this will be listed on this document)

6. Click Finish
